MANA Contemporary is a best-kept secret – and we are going to discover it!!

Join us at 10:30 am to explore this new and under-the-radar arts destination hiding behind the shell of a cluster of warehouse and factory buildings. Where else could you find dozens of high ceilinged artists' studios and galleries AND music rehearsal rooms AND dance rehearsal space AND more!

Our docent will tell us about the history of the Center and lead us on a curated tour of galleries, introducing us to a varied selection of Contemporary art by established and upcoming artists. Including a gallery featuring Anthony Quinn's own artwork and selections from his personal collection.

Lunch will be at Mana Bistro, a New American restaurant offering a delicious menu prepared with the finest seasonal ingredients. The owner's philosophy: *"Food is a form of art. It feeds us, not only in the most physical sense, but emotionally and spiritually as well."*

Our day ends as Sheryl Urman introduces us to several artists at work in their studios to learn about their creative process.
