The New Statue of Liberty Museum

The Statue of Liberty Museum, a new museum that celebrates the Statue of Liberty's history, influence, and legacy in the world, opened in May 2019 on Liberty Island. The 26,000-square-foot museum features three gallery spaces, each one meant to inspire visitors and educate them about Lady Liberty in interactive and thought-provoking ways. The museum experience culminates with an up-close view of Liberty's most iconic symbol – her original torch – held high for nearly 100 years and still a touchstone of the light Liberty shines from generation to generation, *mi dor l'dor*. The new museum is part of a \$100 million Liberty Island-wide beautification effort.
