## Fashion Programs Galore!

Art for Learning has developed seven levels of fabulous, unbelievable and exciting Fashion Programs for 4th to 11th graders. These weekly fashion programs are presented from June 24 through August 30th. Learn about the design process and concepts through advertising, retail and marketing. All programs travel 2 times a week to the garment district or specialty sites, museums and they may even visit show rooms. Each level has their own trips, which are different and may include meetings with fashion designers, marketing and merchandising experts; perfume manufacturers or lectures at FIT and more. Fashion Programs will instruct kids on projects involving design concepts, pattern cutting, sewing, jewelry making, drawing, fabric design, make-up and more. All programs are age appropriate. All programs have been created to make life long memories for the children and to expose them to unique concepts and ideas they would never have otherwise experienced. In existence for over 21 years, the program offers lessons taught by artists and teachers who are passionate about fashion and art. Kids have the chance to create fashion related artwork and fashion related products they can really be proud of and treasure. So call Art for Learning LLC today and get your child ready for a fun and exciting experience they'll never forget (their Art Program is also written about in Camp section). Visit the website, [www.artforlearning.com](http://www.artforlearning.com) for more information.
