**The Complete Picture: TOTAL ART EXPERIENCE**

**With Sheryl Intrator Urman, artist and art lecturer**

The Complete Picture: Art and Life

**PICASSO SCULPTURE**

**Museum of Modern Art  
Thursday, November 12, 2015**

**We start our day at 11:00am** in a Midtown Conference room for a **background talk** by Sheryl Intrator Urman on the life and times of this master. We will learn not only about his love of sculpture, how he cherished these works and kept them relatively hidden, how they co-existed with his paintings and other works, but also the art world around him at the time, the highlights of his career and the impact he made on other artists.

**After lunch** on-site we will **walk a few blocks to MoMA** where we will have *special access without lines* for a **docent tour** of this acclaimed exhibit. *Picasso Sculpture* is a sweeping survey of Pablo Picasso's innovative and influential works in three dimensions. This is the first such museum exhibition in the United States in nearly half a century and has over 100 works showing his breadth of process and use of materials. See how important sculpture was for Picasso, and of how he revolutionized its history through a lifelong commitment to constant reinvention.

**THE COMPLETE PICTURE: \$98 for members of MOMA, \$108 non-members**

**INCLUDES:** Background talk, museum admission, docent tour and lunch
